

Matrix Performance Vest

MSRP \$199

The new Matrix Performance Vest is an ideal training accessory for the Matrix Functional Trainer that broadens strength training possibilities. The vest includes multiple attachments that allow trainers to add more variety and movements to resistance training workouts.

ASSIST OR RESIST

Add resistance in all planes of movement when working to increase strength & power, or attach the pulley to a higher ring for assistance when performing complex dynamic movements.

INTEGRATIVE MOVEMENTS

Engage more muscle by incorporating the core and stabilizers into regular cable workouts for the upper or lower body when clipping into the torso or waist attachments.

SPORTS SPECIFIC TRAINING

Perform sports specific movement patterns and increase agility, balance, speed and range of motion.

ROBUST DESIGN

High grade neoprene and heavy-duty stainless steel color coded rings to elevate any cable workout.
